Agenda:

1. review minutes from October 17, 2022.
    Please review the file "2022-10-17-aa-minutes-draft."

2. Community Health Certificate, 2nd reading   (Sarah Baron, Tony Russell)
    Please review the file "New Public Health CTE Program Stage 2 Proposalv2-edits."

3. Proposed revision of COCC's general education outcomes   (Annemarie Hamlin)
    Annemarie asks that everyone do their own analysis of whether the proposed COCC outcomes are substantially similar to the original outcomes, as HECC requested that we do. Please see the file "General Education Outcomes old and new."

    Two notes:
    - **Science**: We received feedback from PSU on the science outcomes: "The only change I would be concerned about would be the changes for Science, which are "Science: Evaluate a hypothesis using qualitative or quantitative data.". I recognize that COCC was splitting Computer Science from Science in making that statement, but I'm concerned it doesn't cover what is already in the state outcomes well enough."
    - **Information Literacy**: In 2019, the statewide library group proposed changes to the information literacy outcomes, and I have included those updates here. However, we have yet to confirm whether these changes were accepted.

    Another note: the state (JBAC? HECC?) is also concerned that any revised outcomes "follow the spirit" of the criteria they have which expand on the outcomes.   Please review

the file "Appendix E – Outcomes and Criteria for Transferable General Education Courses in Oregon."

4. proposed revision of institutional syllabus (Becky Plassmann)
   Please review the file "Revised COCC Institutional Syllabus Fall 2022 DRAFT (003)."

5. new program: Carpenter Apprenticeship Program.   (Kip Morris, Michael Fisher)
   Please review the file "presentation checklist for carpenter apprenticeship program."
   We will review this program if we get more complete documentation before Monday's meeting.
